ROHIT GAJANAN HAGE

Phone: 8446420312 | **LinkedIn:** linkedin.com/in/rohit-hage-87540b22a **| Email:** rohitgajananhage@gmail.com

SUMMARY

Full Stack MERN Developer with hands on experience in building scalable web applications and AI-integrated platforms. Skilled in React.js, Node.js, MongoDB, REST APIs, and authentication systems. Developed multiple full-stack projects involving real time tracking, AI/ML integration, and role-based workflow management.

TECHNICAL SKILLS

- **Languages** **: JavaScript**, Java,c#
- **Frontend** **: React.js,** HTML5, CSS3
- **Backend** **: ASP.NET Core, Node.js, Express.js, REST APIs**
- **Database** **:** MongoDB, MySQL, PostgreSQL
- **Tools** **: Git, GitHub**, Postman, VS Code , Sourcetree
- **Concepts** **:** JWT Authentication, Role-Based Access Control, AI/ML Integration

PROJECTS

1. **Final Year Project – AI Interview Analysis System | Tech Stack: MERN**
   - **URL**: https://mockprep-8ghv.onrender.com
   - Developed a full-stack AI-powered interview preparation platform using the MERN stack with **secure JWT cookie-based authentication** and session management.
   - **Integrated 3 Machine Learning models** for face recognition, voice confidence analysis, and answer evaluation to provide real-time interview performance insights.
   - Implemented face detection verification before interview submission, preventing invalid attempts and ensuring authentic interview sessions.
   - Built an AI-driven confidence scoring system that analyzes facial expressions and speech confidence while storing complete interview records and progress tracking in MongoDB.

2. **AI-Based Community Waste Reporting Platform | Tech Stack: MERN**
   - **URL** :https://westfrontend.onrender.com
   - Developed a full-stack garbage reporting platform using the MERN stack .
   - Implemented **camera-based image uploads with GPS location tracking and real-time map visualization** for efficient waste monitoring.
   - Built a secure complaint management system with user and admin modules, enabling complaint tracking, status updates, and officer assignment.
   - **Integrated duplicate complaint detection using location-radius filtering**, reducing redundant reports and improving management efficiency.

3. **SERVEASE – Local Service Booking Platform | MERN Stack**
   - **URL**: https://imaginative-kelpie-2f834b.netlify.app/
   - Developed a full-stack local service booking platform enabling users to book services such as electricians, plumbers, and home cleaning through a centralized system.
   - Implemented secure authentication and role-based access control for customers, service providers, and admins with complete admin workflow management.
   - Built an efficient booking and complaint management system with service tracking, feedback collection, and real-time status updates.
   - Designed a scalable payment-ready architecture with payment gateway.

EDUCATION

Bachelor of Engineering (Information Technology)
Sipna College of Engineering And Technology, Amravati | CGPA: 6.76 | 2026

HSC (2022)
Sau Pushpatai Vikrmrao Deshmukh Art & Science Jr.College Kaothal | 70.33%

SSC (2020)
The New Era High School , Jalgaon(Jamod) | 71.60%

CERTIFICATES

- **MERN Stack Development Certification – TechSaksham in collaboration with Microsoft | 2025**
- **HackerRank Java Certification | 2025**
